

2009-2010 SAI Technology Leadership Training Phase 1, Day 1

STORM LAKE Notes

Big Ideas

-Instant accessibility

Things that used to be recorded on paper are now done electronically.

Unlimited potential

onn

:lack of reflection due to instant gratification.

Limited by training.

Openness

lack of attention span - instant entertainment

The ability to share and communicate ideas quickly

We can communicate with people easily and never make a personal contact.

Need to be sure we know the identity of those we communicate with.

-Job/employment shift and the ripple effect

security, copyright issues, not as personal

Change in learning and the communication process

Connectivity-how we can interact with others throughout the world

Diminishes the need for people skills

Globalized

Using multiple resources at any time and any place. Having a doctor read your x-rays in Australia.

Employability-how marketable are you
